Dear Customer:

ISOFlex Packaging does not add or use any of the following allergens in the production of any films or bags supplied to our customers:

Crustaceans, Dairy (Milk), Eggs, Fish, Peanuts, Soybeans, Tree Nuts or Wheat.

Specifically, no wheat-based agents, such as wheat starch, are used in the manufacture of the food contact packaging ISOFlex Packaging produces.

The suppliers to ISOFlex Packaging have confirmed that they do not use wheat-based release agents in the manufacture of the packaging material supplied to ISOFlex Packaging. Note: Some of the packaging material is produced from recycled paper. This material may contain trace quantities of wheat based release agents.

Additionally, per our GFSI SQF Level 3 procedures, only clean, non-contaminated trucks are contracted to transport our products. Each truck is inspected prior to loading to ensure compliance with this procedure.

Based on this information and our knowledge of the production of these products, ISOFlex Packaging does not expect these items to contain any of the above allergens other than trace quantities that may occur in the environment.

Keith VanHulle

Technical Director - Corporate
