Dear Customer,

ISOFlex Packaging does not use any resins or additives that are produced with Sodium Aluminum Phosphate-Acidic, Starch Aluminum Octenylsuccinate and Sodium Aluminosilicate are not used in the production of any of its films or products.

There is no reasonable expectation of accidental contamination beyond trace quantities existing in the environment

Since we have no reason to suspect these materials to be present in our films, we do not test for these materials or any of compounds derived from them.

Keith VanHulle
