

ISOFLEX SHRINK BUNDLING FILMS

Our shrink film family has been specially developed to offer an excellent combination of product performance and physical properties. Each film has been tailored to meet the unique requirements for many different types of applications and equipment. COF, shrink, and other physical properties can be adjusted to process on a wide range of converting equipment and operations.

600—SB

- ◇ Our standard film—good for demanding applications and heavy packs.
- ◇ Good puncture and tear resistance.
- ◇ Excellent two hand bulls eye lift.
- ◇ Used on both single and dual roll machines.

600—HSB

- ◇ Our best all purpose single roll film—excellent for demanding applications and heavy packs.
- ◇ Good puncture and tear resistance.
- ◇ Small bulls eye for better package integrity.
- ◇ Used on both single and dual roll machines.

600—SBI

- ◇ Specially formulated for cold applications (ice cream, etc.).

600—FB

- ◇ Specially formulated for “film over film” applications.
- ◇ Will not adhere to most film-wrapped inner packs.

CLEARWRAP

- ◇ Formulated to provide low haze and high gloss for demanding clarity applications.
- ◇ Excellent puncture and tear resistance.
- ◇ Great choice for further printing and converting.
- ◇ Small bulls eye for better package integrity.
